

Dear Customer:

The European Chemicals Regulation (1907/2006/CE) entered into force on 1st of June 2007 and defines the obligations for the importers, manufacturers, sellers, and users of chemicals in the EU. Anord Mardix manufactures and sells electrical and electronic equipment and is consequently within the scope of REACH regulation. This certificate confirms that Anord Mardix fulfils its obligations under the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) regulation.

Within its manufacturing activities of articles, Anord Mardix uses preparations and articles provided by suppliers. According to the REACH regulation, Anord Mardix is identified as a downstream user and has the obligation to be informed of the presence of SVHC's in a concentration above 0.1% w/w.

To the best of our knowledge, based on the declarations obtained from our suppliers at the publication date of this document, the substances included in the candidate list to authorization (SVHC) are not present in the products we provide you to a concentration above 0,1% w/w.

The statement given above may be amended in the particular case our suppliers provide us with new information about their compliance. In case any new SVHC is identified in the products we provide you above the threshold of 0,1% by weight, we will take all necessary actions to inform you.

Sincerely,

Kind Regards,

Jerry Walter
Quality Manager
